Vinyl Lp/Digital

**Ninos Du Brasil “Antro Pop” Vinyl Lp/Digital**  
**Release date: May 13th, 2022**

**Ninos Du Brasil** returns with their **fourth** and dangerously festive album of ragged junk percussion, crushed bass and deja vu gang vocals that make you **sing along** to something you have never heard. Expert and vast production by **Rocco Rampino** brings a new weight to the thick and invasion sequencing that pretty much **wins** over all those who have seen the **barbaric** face painted sneaker punks live.

A surprising introduction of cinematic Morricone-esque guitar will break open what could otherwise be known as your dead heart. Guest drums by **Iggor Cavallera** seals the deal and your fate before the confetti guns of the most **brutal** electro punk band's return.

The theme continues from previous album Vida Eterna where Ninos Du Brasil were attacked by **vampires** and sick night creatures escaping in a foggy forest.

Driven into hiding and **imprisoned** by a wall of crawling, growing cave bats; through the despair of **primordial** drumming and the **mantra** of stalactite voices, Antro Pop was conceived.
